The standard annual subscription rate for Specialist Taka 300/=; Trainee Doctors and students Taka 100/= only; and International rate US\$100, rates includes postage and handling.

Processing fee :

The processing fee for each article is one thousand taka. The money should be paid by cash or by bKash.

Preparation of Manuscript :

Author should write in clear and concise English. Spelling should follow the Oxford English Dictionary. Three original copies of each article are required, typed on one side of bond papers of A4 size only, in double spacing, with margins in both sides and top & bottom of at least 1½ inches in MS Word documents. Please make a copy in a CD. Number all pages in sequence beginning with the title page. Submit three copies arranged as follows:

Title Page :

This should written the title of the manuscript (5-6 words title), the names of all authors & their affiliations, and at the bottom of the page, institution where the work has been carried out, and the address of the corresponding authors including Fax, Phone and E-mail.

Structured abstract :

Should be a factual condensation of the entire work with background/ introduction, objective, methods, results & conclusion and should be in one para, of approximately 250 words for case report and review article; approximately 350 words for original article (one a separate sheet of paper) with three keywords for indexing.

Text :

Articles must consider and follow the format: introduction, material and methods, Results, Discussion and conclusion (if necessary). The matter must be written in a manner, which is easy to understand, and should be restricted to the topic discussed. Do not use vertical lines or underlining in the text. Ensure that all figures and Tables are mentioned in the text and that all references are listed in number order.

Materials and methods:

Authors should mention the nomenclature, the source of material and equipment used with manufacturers in details. The procedures adopted should be explicitly stated to enable other workers to reproduce the results. The author may describe new method in sufficient detail indicating their limitation. Established methods can just be mentioned with authentic reference and significant deviations. When reporting experiment on human subjects author should follow the ethical standards on human experimentation. The drugs and chemicals used should be precisely identified indicating dosage and route of administration.

Results:

Only such data that are essential for understanding the discussion should be included. Data presented in tables and figures should not be repeated in the

text. The same data should not be presented in both tabular and graphic forms.

Discussion:

The discussion should deal with the interpretation of result without repeating what already was presented under the results. Discussion should relate new finding to the known one if any and include logical deductions.

Acknowledgements:

All acknowledgements including financial supports should be placed as the last element of the text before references.

AI disclaimer:

All the research should be conducted and written by the authors without the use of artificial intelligence(AI).

References:

In the text references should be numbered consecutively as superscript and should appear on top of the line after the punctuation. References should not exceed 15-20 in number.

The Journal of Sylhet Women's Medical College (JSWMC) follows the Vancouver system of references.

The full list of references at the end of the paper should include: names and initials of all authors (unless more than 6, when only the first 6 are given followed by et al); the title of the paper; the journal title abbreviated according to the style of Index Medicines; year of publication; volume number; first and last page numbers. Author should follow the style of the Journal of Sylhet Women's Medical College to cite references. Examples of references are given bellow:

Articles in Journals

1. Standard journal article:

List the first six authors followed by et al. (Note: NLM now lists up through 25 authors; if there are more than 25 authors, NLM lists the first 24, then the last author, then et al.)
